

# Stop the spread of syphilis

**Alberta is facing an outbreak of infectious syphilis.**

Over 200 cases of infectious syphilis were identified throughout the province last year; a 40% increase from the previous year.

Anyone who is having unprotected sex, outside of an exclusive, single partner relationship, can contract syphilis. People of all ages face the risk.

Syphilis is a sexually transmitted infection that can cause serious health consequences. It can be detected with a simple blood test and is treated with antibiotics.

What you can do to prevent the spread of syphilis:

- Practice safer sex with the use of a condom.
- If you think you may have been exposed to syphilis, talk to a health professional about having a syphilis blood test.
- For more information, call the STI/HIV line at: 1 (800) 772 2437.

For more information, visit: [www.health.gov.ab.ca](http://www.health.gov.ab.ca)

**THIS IS SIMPLY A PICTURE OF A WOMAN  
EATING A VANILLA ICE CREAM CONE.**

**SURE, SHE'S ATTRACTIVE. SULTRY, EVEN. BUT SHE IS ONLY EATING IT BECAUSE IT TASTES GOOD AND IT IS HOT WHERE SHE HAPPENS TO BE.**

**KEEP it  
CLEAN.**
